About me

Software Engineer passionate for technology and solutions. Studying formal Computer Science at Unisul and keep studying new topics. I put attention to details and encourage the best practices of my peers. Easy going and good listener, I like to teach and learn with others.

Work experience

Full Stack Developer, Jr / [Zipper](#) Santa Catarina, Florianópolis, Brazil

Since November 2019

- Agile development of products oriented by user experience (UX) and data analysis;
- Creation of resilient and optimized back-end APIs with Node.js, Typescript and Java;
- Front-end development with Vue.js and Nuxt.js;
- Integrating microservices with multiple ERPs like Bling, Microvix;
- AWS cloud computing and infrastructure;
- Working with large, hard-to-manage volumes of data utilizing BigQuery;
- Utilizing NoSQL databases like MongoDB;
- Continuous integration with Jenkins;
- Mentoring of peers for better programming practices and patterns.
